

GATOR TH, TX CABS: (Soft Top)

These cabs are manufactured as a kitset and bolt into place on the Gator. They are designed and classified as a weather protection cab only, not as a safety frame, however it will afford protection in the event of a rollover.

Windscreen is made of toughened safety glass; sides, back and roof are industrial PVC, on a sturdy painted steel frame. Guaranteed long life & low maintenance, this cab will transform your Gator into an all seasons, all weather ATV!

Other options are a higher roof cab for taller riders, or a no-back cab which has the same PVC roof but does not extend down the back as the Std cab.
