

At Last! Something every UTV owner will love to have...

Nothing else like it in NZ!

Make every day a good day.

For everyone in the NZ farming & recreational riding Industry:
**UTV 'Sound Wedge'
Amplified Sound System**

- Quad
- Boat
- UTV
- Camp

Specially designed to withstand tough punishment and the hard knocks.

New to NZ, the American 'Sound Wedge' is an amplified sound system made specifically for the UTV, but with a myriad of other possibilities beside. Just plug in your iPod, MP3 or other player and go! The high quality marine grade speakers are water, UV, corrosion & shock resistant and have a one piece moulded grill for safe speaker protection and durability. Comes with all necessary hardware to mount to either a rollbar or plastic roof, as well as being able to sit flat as a handy, versatile portable speaker. See overpage for specifications & details.

Rollbar mounting:

Roof mounting:

Specially designed to withstand the tough punishment of all terrain riding, The UTV Sound Wedge Copes with the highest level of weather exposure, vibration and shaking and delivers an unfaltering high quality stereo sound.

The weather resistant, one piece roto moulded plastic enclosure includes:

- Powerful 100 watt built in amplifier
- Six neon blue LED dome lights
- 12' Aux cable works with any iPod or MP3 player
- 12' Power cord works with any 12 volt power source
- Separate docking station to hold your iPod or MP3
- Two channel 200W marine grade speaker system
- 2 x 200W marine grade 6.5" woofers/mid range speakers
- Two 1" Marine grade tweeters
- Volume control
- Mounts to any roof or 1.5 - 2 inch roll bar
- Includes all mounting hardware and instructions

Great for UTV's, Jeeps, Cars, Boats, camping etc
